Abound®

OPTIMIZED FOR CHANGE.

STACKED IN YOUR FAVOR

Able to support a multitude of office layouts in a single bound? Check. Makes installation and reconfiguration seem like child's play? Check. When it comes to delivering durable and flexible workspaces, Abound performs like no other. An interchangeable frame and tile system featuring an impressive selection of tiles, Abound supports any office space design to help workplaces reach their full potential.

seating and Flagship laterals.

WORK THE ROOM

No one-trick ponies here. Abound helps organizations look buttoned-up by creating a unified aesthetic for a host of spaces. From open environments to teaming spaces and private offices, Abound offers a crisp, modern take on an architectural aesthetic.

HIGH ACHIEVEMENT

Privacy and focus come naturally with panels that stack 110" high so you can gather your thoughts without distractions.

TEAM PLAYER

Ideal for shared teaming workstations that balance collaboration with privacy.

IT'S A CINCH

Hassle-free. There's no other way to describe just how simple it is to install and reconfigure Abound. We've even made power and tech a breeze to lay-in and switch up as needed. Designed with durability and flexibility in mind, Abound is perfect for organizations that undergo frequent change and need it done in a snap.

TILES

Ready for a new look? You can easily switch out tiles to achieve different aesthetic or functional goals. Tiles can be placed in interchangeable positions up and down a panel frame.

FEWER PARTS, MORE OPTIONS

Abound not only works everywhere, it's easy to install anywhere. With a minimal kit of parts and intuitive universal connectors, Abound can be specified, ordered, installed and reconfigured quickly.

POWER UP

Position power and data outlets at the desktop, panel base, or both. Lay-in capabilities—electrical and data in the baserail or data in the top channel—expand cabling capacity and make reconfigurations easy.
